

**TRICOR AXCELASIA MALAYSIA**

# BCM & TECHNOLOGY ADVISORY

The key to surviving business disruptions is identifying and preparing comprehensive strategies to address issues before they arise. Business continuity management (BCM) increases resilience by allocating appropriate resources for recovery, safeguarding employees, minimizing loss of data, managing supply chains and maintaining corporate reputation during disruption or crises.

Our delivery approach is based on ISO 22301 and we support our clients by:

- Implementing the overall BCM program
- Executing business impact analyses and risk assessment
- Proposing business continuity strategies and solutions
- Developing a business continuity plan
- Monitoring the implementation of the business continuity program
- Conducting training and educational exercises
